PROJECTS

DocFlow AI:

- Built a full-stack, privacy-first PDF/document suite as a free alternative to Sejda & I Love PDF.
- Features PDF→Word, Word→PDF, image→PDF, compress, merge, split, watermark, and visual PDF editor, ETC...
- Integrated Google Gemini 2.5 Flash for **AI Summarise**, **Chat-with-PDF**, and **multi-language translation** and **ACE EXAM** feature.

Gym Tracker App:

- Developed a workout tracking web app using HTML, CSS, and JavaScript.
- Integrated Google Firebase for secure, real-time storage of workout data.
- Allows users to log exercises, meals, sets, reps, weight, and monitor progress over time. and Google AI for Coaching and macros tracking

City Guard:

- Citizens submit geo-tagged reports with photo evidence (Cloudinary), voice notes, urgency levels, and category tags via a guided 4-step form.
- Mayor's Command Console enables officials to assign issues to departments, track statuses (Pending → In Progress → Resolved), and issue directives.
- Implemented community *upvoting* for crowdsourced prioritisation and a real-time City Insights Dashboard with animated analytics charts.

Portfolio Website:

- Built a responsive portfolio using HTML, TypeScript, Vite, and Tailwind CSS with *Framer Motion*, *custom shader animations* & *Canvas API*.
- Showcases projects and skills with a clean, modern UI.
